Hotel food GST: the 1-page check

1. ☐ **Look at last financial year's room rates.**
   Was any room sold above ₹7,500 for one night (per unit, per day)?

2. ☐ **Yes: restaurant bills this year are 18% GST.**
   And you can claim input credit on the GST you pay on purchases.

3. ☐ **No: restaurant bills stay at 5% GST.**
   But no input credit on purchases at 5%.

4. ☐ **Do the maths on one bill.**
   ₹2,000 dinner: 5% = ₹100 GST. 18% = ₹360 GST. A ₹260 gap per bill.

5. ☐ **Re-check every April.**
   The test uses the previous financial year, so a new year can change your rate.

6. ☐ **Confirm with your CA before you change your billing.**
   Rules and notifications can change. This sheet is a starting point, not tax advice.
